

A vision of a premier world-class hiking destination, a jewel of the Columbia Gorge National Scenic Area trail system, a legacy for the local community and Skamania County to be shared with hiking enthusiasts of the Pacific Northwest, the nation and beyond...

The Cape Horn Trail, a wonderful addition to the network of trails in the Gorge, was declared "official" by the USFS in 2010. Much has been accomplished: overlooks, underpasses, bridges and safety steps have been built; numerous sections of the trail have been rerouted and/or established; native plants have been reintroduced and invasive weeds removed. CHC is committed to an active partnership with the USFS in continuing stewardship of this world-class hiking destination and the development of the Washougal to Stevenson trail corridor. CHC trusts you feel the excitement in what we can create together. Please join us in helping to create and maintain this phenomenal trail system.

I'm Interested in volunteering for:

- trail construction/maintenance/brushing
- weed eradication/control/native plantings
- hiking and monitoring the trail (note and report trail condition, hiker behavior, sensitive areas)
- public outreach (manning table at park n' ride kiosk or local events, educating school youth)
- co-leading hikes/special events
- web-site (updating, maintaining)
- fundraising
- informational flyers (creating and updating)

I strongly support this trail. Count on my membership at the following level:

___\$25 ___\$50 ___\$100 ___\$250 ___\$500 ___Other

Name: _____

Mailing Address: _____

City: _____ State: _____ Zip: _____
